Control Arm Bolts

Pn# - CAK04A \$29.00 set

64-72 A-body control arm 4 bolts, nuts set

Pn# - CAK08A \$59.00 set

64-72 A-body control arm 8 bolts, nuts set

Pn# - CAK12A \$89.00 set

64-72 A-body control arm 12 bolts, nuts set

Details:

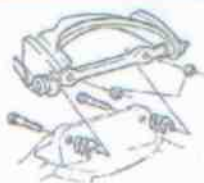

These are factory correct control arm bolts and lock nuts for all A-body cars. This kit includes the black zinc bolts and silver zinc lock nuts. These are the correct exact to NOS bolts that were used on your car from the factory. They are the correct size, shape and color plated for a concours restoration. They have head markings with 6 dashes and the F in the center. This is a correct GM head marking. There are 12 bolts on your car. 4 are for the front control arms and 8 are used in the rear. This is the factory correct hardware. In the 60's there were many manufacturers of these bolts for GM and we have seen multiple head markings on a single car and this is one of those head markings.

70-72 Monte Carlo, 69-72 Grand Prix Body Mount Kit - Hardtop

Details:

Now available are GMA-body mounts. These are the mounts that hold the body to the frame. They are often dry rotted or rusted and cause the body to sag or loose support. These new reproductions are a perfect match to the originals.

64-72 GM A Mount Bolts

Pn# - BMK10H \$39.00 Set

64-72 A-Body Mount Kit 8 Bolts & 8 Washers

Pn# - BMK11H \$45.00 Set

64-72 A-Body Mount Kit 10 Bolts & 10 Washers

Pn# - BMK12H \$51.00 Set

64-72 A-Body Mount Kit 12 Bolts & 12 Washers

Details:

For the first time offered GM A-Body mount bolts. These are the correct style bolts with built in washer flange, plated the correct black phosphate. It has been confirmed that many cars used a different number of bolts. Most A-body manuals call out 4 bolts on each side of the car but the cars in most cases were built with 5 on each side.

GM Upper Ball Joint Rivets

Pn# - CARMR01 \$26.00 set

GM upper Ball Joint Rivets Set of 8.

Details: From the factory all upper ball joints were riveted into place. Inline Tube has manufactured a correct rivet head bolt that will ins tall and give that factory original look to your control arm.
